

Crate Mold

This crate mold is designed for producing plastic crates. It is available in various sizes and configurations, including single and double cavity options.

Overview

High-Performance Crate Molding Solutions

These precision-engineered crate molds are designed for high-volume manufacturing, offering versatility in both single and double crate configurations. With a robust design featuring advanced core technology, these molds ensure consistent quality and durability for industrial plastic crate production. Available in a range of standard dimensions, they are optimized for efficiency and reliability in demanding molding environments.

Technical Specifications

Available Dimensions

- 300 x 400 x 160 mm
- 538 x 358 x 240 mm
- 600 x 400 x 160 mm
- 600 x 400 x 320 mm

Cavity Configuration

2-cavity core

Material Features

Moldmax, High-Durability Core
