

Crescent Moon and Star Night Light

This night light features a blue plastic cover with a crescent moon and star pattern. The base plugs into a wall outlet and has a rotary switch for adjusting brightness.

Product Overview

Crescent Moon and Star Night Light

This night light features a distinctive blue plastic cover adorned with a crescent moon and star pattern, designed to cast a soft, comforting glow through the cutouts. It is equipped with a convenient black rectangular base that plugs directly into a standard wall outlet, making it an ideal lighting solution for children's rooms or hallways. The unit includes a user-friendly rotary switch on the side, allowing for precise brightness adjustment to suit different nighttime environments.
