

Crimped Wire Bevel Brush 100-115mm Diameter

Crimped wire bevel brush designed for use with machine tools. It features robust construction with a central mounting hole for secure attachment and is ideal for surface preparation and rust removal.

Product Overview

Professional Bevel Brush Solution

This crimped wire bevel brush is engineered specifically for precision work in hard-to-reach areas, including complex edges and corners. Designed for compatibility with standard machine tools, it features a robust construction that ensures durability during demanding surface preparation tasks. It is an ideal choice for industrial applications requiring effective rust removal and edge blending.
