

Crimped Wire Bevel Brush

Crimped wire bevel brushes are available in diameters from 100mm to 175mm. They are constructed with high-quality crimped wire for effective material removal and a consistent finish.

Product Overview

Professional Crimped Wire Bevel Brush

This crimped wire bevel brush is engineered specifically for precision work in hard-to-reach areas, including tight edges and corners. Designed for surface preparation, deburring, and cleaning, it effectively removes rust, scale, and paint from metal surfaces. Its durable construction ensures a consistent finish and reliable performance in demanding industrial environments.
