

CRT Television with 4:3 Aspect Ratio

This is a cathode ray tube (CRT) television with a 4:3 aspect ratio screen. It features integrated speakers and a control panel for power, menu, volume, and channel selection.

Product Overview

Vintage CRT Television

This classic CRT television features a traditional 4:3 aspect ratio, perfectly suited for vintage media enthusiasts and retro gaming applications. The unit is encased in a durable silver-colored plastic housing with a dark bezel, providing an authentic aesthetic experience. Integrated front-facing speakers ensure audio functionality, while an intuitive physical control panel allows for easy navigation of settings.
