

CRT Television with Integrated Speakers

This is a cathode ray tube (CRT) television with a silver-colored frame and integrated speakers. It features a dark bezel surrounding the display and control buttons along the bottom edge.

Product Overview

Vintage CRT Television Experience

This cathode ray tube television features a classic design with an integrated speaker system on either side of the screen. Its silver-colored frame provides a distinct aesthetic, while the dark bezel frames the display for better contrast. Designed with physical control buttons along the bottom edge, it offers a tactile and nostalgic viewing experience suitable for specialized applications.
