

CRT Television with Integrated Speakers

This CRT television features integrated speakers on either side of the screen. The design incorporates a sleek, minimalist aesthetic with a focus on a clear display.

Product Overview

Professional CRT Display Solution

This CRT television features a classic design with an integrated speaker system, providing a robust audiovisual experience. With its glossy black finish and minimalist aesthetic, it serves as an excellent display solution for retro-gaming setups, vintage broadcast environments, or specialized professional testing equipment. The unit is designed for stability and clarity, ensuring consistent performance for specialized display requirements.
