

# CRT TV Mainboard

Mainboard designed for use in CRT televisions. It incorporates components for power input, audio/video input/output, and control interface.

## Product Overview

### Universal CRT TV Mainboard

This versatile CRT TV mainboard is designed to support screen sizes between 25 and 29 inches. It features advanced Sanyo IC integration and supports a wide range of global color systems and multi-language OSD menus for international compatibility. With comprehensive AV input options and intelligent features like sleep timers, auto-search, and protection mechanisms, it is an ideal solution for TV repairs or custom display builds.
