

Curved Glass Chest Freezer for Display

This chest showcase freezer features a curved glass lid, designed for displaying frozen goods. It incorporates a temperature control system, energy-efficient operation, and caster wheels for mobility.

Product Overview

Commercial Curved Glass Chest Freezer

This commercial chest showcase freezer features a curved glass lid design, specifically engineered for high-visibility product display in retail environments. Equipped with an advanced temperature control system, it ensures optimal preservation for frozen goods while maintaining energy-efficient operation. Its robust construction and mobility, facilitated by caster wheels, make it an ideal solution for supermarkets, convenience stores, and restaurants seeking reliable frozen storage.

Technical Specifications

Model Number	SD-575K
Design Features	Curved Glass Lid, Mobile, Commercial Grade
Mobility	Yes

Usage

Target Applications

- Supermarkets
- Convenience Stores
- Restaurants
