

Curved Jaw Locking Pliers

Professional-grade locking pliers have curved jaws for securely gripping various shapes. They are made from heat-treated alloy steel for durability and feature a quick-release mechanism and ergonomic handles.

Product Overview

Professional-Grade Locking Pliers

These curved jaw locking pliers are engineered for versatility and durability in professional environments. Featuring a robust heat-treated alloy steel construction, they provide reliable performance for gripping round, flat, and square materials. Designed with user comfort and efficiency in mind, they include an ergonomic grip and a quick-release mechanism to facilitate seamless one-handed operation.

Technical Specifications

Material	Heat-treated alloy steel
Jaw Design	Curved jaw
Clamping Mechanism	Adjustable clamping force
Key Features	Quick-release, One-handed operation, Ergonomic handle, Comfort grip

Applications

Suitable Applications

- Automotive repair
- Plumbing
- Welding
- General maintenance

Compatible Materials

Round • Flat • Square
