

Custom Chopper Bicycle with Ape Hanger Handlebars

This custom chopper bicycle features a long, raked front fork and ape hanger handlebars. It has a low-slung frame with red accents and a small, sprung saddle, designed for recreational use.

Product Overview

Custom Chopper Style Design

This custom chopper bicycle is designed for riders who value unique, eye-catching aesthetics over pure performance. Featuring a distinctive long, raked front fork and iconic ape hanger handlebars, this bike offers a laid-back, low-slung riding position. It is an ideal choice for recreational cruising and novelty use, combining a sleek black frame with bold red accents for a standout appearance.
