

# Custom Chopper Bicycle with Elongated Fork

This is a custom-designed bicycle with a chopper-style frame, featuring an elongated front fork and a laid-back riding position. The bicycle has a red frame with silver accents and is designed for recreational use and cruising.

## Product Overview

### Custom Cruiser Design

This custom chopper-style bicycle is engineered for recreational cruising and standout aesthetics. Featuring a distinctive elongated front fork and a laid-back riding geometry, it offers a unique, comfortable experience for riders. The robust steel tube construction ensures durability, while the classic banana seat and high-rise handlebars complete its iconic silhouette.
