

Cut-Off Saw for Metal

This cut-off saw is designed for precise and efficient cutting of various materials. It features a powerful motor for high-speed cutting and a sturdy base for stability.

Overview

Industrial Performance

The 7316N Cut Off Machine J3G-SH04-400 is a robust tool engineered for precise and efficient cutting of metal materials. Designed for demanding work environments, it features a powerful motor for high-speed operation and a sturdy base to ensure stability during use. With safety features like a cutting wheel guard and an adjustable fence for accurate angle cuts, it is an ideal solution for metal fabrication and construction applications.

Technical Details

Model Number	J3G-SH04-400
Series	7316N

Features

Key Features

- Powerful motor for high-speed cutting
- Sturdy base for enhanced stability
- Adjustable fence for precise angle cuts
- Integrated cutting wheel guard
- Ergonomic handle for reduced operator fatigue

Product Status

NEW

Ideal Applications	Metal Fabrication, Construction, Industrial Use
