Product Overview

Professional Tufting Performance

This professional-grade tufting gun is designed for versatility, offering both cut pile (AK-I) and loop pile (AK-II) capabilities in a single, robust machine. Engineered for reliability and precision, it features a high-performance motor and an ergonomic design to ensure smooth operation for rug and carpet making. Ideal for textile artists and manufacturers, this tool combines durable mechanical components with user-friendly controls for consistent, high-quality results.
