

Cycling Gloves with Enhanced Grip

These cycling gloves offer enhanced grip and comfort for any ride. The gloves feature breathable fabric and reinforced palms for optimal control.

Overview

High-Performance Cycling Comfort

These cycling gloves are engineered for professional and recreational riders seeking a balance of grip, safety, and comfort. Featuring a microfiber palm for durability and a reflective back for enhanced visibility, they ensure optimal control in various riding conditions. The breathable, knitted elastic fabric provides a snug, ergonomic fit that reduces hand fatigue during long-distance cycling.

Technical Specifications

Detailed view of the microfiber palm and reflective elastic backing for safety and comfort.

Material Composition

Component	Material Type
Palm	Microfiber
Back	Reflective print / Knitted elastic fabric

Item Number	KCY-C20-25
-------------	------------

Key Features
