

Cycling Gloves with Padded Palm

These cycling gloves provide enhanced grip and shock absorption. They are suitable for road cycling, mountain biking, and other outdoor activities.

Product Overview

High-Performance Cycling Protection

These professional cycling gloves are engineered for optimal grip, comfort, and durability across various cycling disciplines. Featuring advanced shock-absorbing palm padding and breathable knitted elastic fabric, they provide a secure hold and superior ventilation during long rides. The integrated touchscreen-compatible fingertips and reflective safety prints make them a versatile choice for modern road and mountain bikers.
