

Cylinder Bed Compound Feed Lockstitch Sewing Machine

This cylinder bed, compound feed, lockstitch sewing machine is designed for heavy-duty applications. Its cylinder bed construction facilitates the sewing of curved and tubular items.

Overview

Industrial Heavy-Duty Performance

This cylinder bed, compound feed lockstitch sewing machine is engineered for demanding industrial applications, including the production of leather goods, footwear, and upholstery. Its specialized cylinder bed design facilitates the sewing of curved or tubular items with precision. The robust compound feed mechanism ensures consistent material handling, effectively preventing slippage to deliver high-quality, reliable stitches in heavy-duty environments.

Key Features

Machine Type	Cylinder Bed Compound Feed Lockstitch
Ideal Applications	Leather Goods, Footwear, Upholstery

Technical Details

Feed Mechanism	Compound Feed
Lubrication	Oil Pressure Lubrication
Bed Type	Cylinder Bed
