Product Overview

High-Performance Cylinder Head Sealing

This multi-layer steel (MLS) cylinder head gasket is engineered for optimal sealing and durability in demanding engine applications. Designed to withstand extreme temperatures and pressures, it ensures a reliable seal between the cylinder head and engine block to maintain compression. Precision-manufactured to resist coolant and oil degradation, this gasket effectively prevents leaks and supports consistent engine performance.

Technical Specifications

Compatible Vehicle Types

- Auto
- Car
- Truck

Construction

Multi-layer steel (MLS)

Material Features

Stainless Steel Layers, Heat-Resistant Sealant, Embossed Layers
