

Cylinder Liners for Internal Combustion Engines

These cylinder liners are engineered for a precise fit within internal combustion engines. They provide proper sealing and efficient heat dissipation, contributing to optimal engine performance and longevity.

Overview

Precision-Engineered Cylinder Liners

These cylinder liners are specifically designed for FL912 engines, serving as a critical component for maintaining optimal performance and extending engine service life. Manufactured to meet or exceed OEM standards, they ensure proper sealing and efficient heat dissipation within the engine block. Engineered for reliability, these liners provide a durable and precise fit for demanding automotive and industrial applications.

Technical Details

Key Features

- Precision-engineered fit
- OEM specification compliance
- Enhanced heat dissipation
- Improved engine sealing

Part Number	04231497
-------------	----------

Compatible Engine Models	FL912
--------------------------	-------
