

Cylindrical LED Landscape Light

This is a set of cylindrical lighting fixtures designed for outdoor use. The fixtures feature a metallic ring with LEDs and a durable base with mounting slots.

Product Overview

Professional Landscape Lighting Solution

This cylindrical LED landscape light is engineered for durability and efficient outdoor illumination. Featuring a robust metallic ring construction and a weather-resistant design, it provides a reliable solution for architectural and garden lighting projects. The energy-efficient LED technology ensures long-lasting performance, making it an ideal choice for professional landscaping installations.
