Product Overview

High-Efficiency Cylindrical LED Lighting

These T-shaped LED bulbs are engineered for energy efficiency and long-lasting performance in various commercial and residential applications. Featuring a cylindrical body with a frosted diffuser, they ensure consistent, even light distribution while minimizing energy consumption. Their compact form factor and standard E27 screw base make them ideal for fixtures where space is limited.

Technical Specifications

Key Performance Metrics

960 lm Max Lumen Output	12 W Max Power	250 V Max Voltage
-----------------------------------	--------------------------	-----------------------------

Model Specifications

Model	Power	Lumen Output	Dimensions
T35	6	480	Ø36.7*98.3mm
T37	9	720	Ø37*115mm
T44	12	960	Ø44*138.6mm

General Information

Base Type	E27
Input Voltage Range	100-250V / 175-250V
Key Features	Energy Efficient, Frosted Diffuser, Compact Design, Cylindrical Shape
