

# D Size Alkaline Battery LR20

D size alkaline battery provides reliable power for various electronic devices. These batteries are mercury-free, ensuring environmental safety.

## Product Overview

### High-Performance D Size Alkaline Power

This premium D size alkaline battery is engineered for reliable, long-lasting performance in a wide array of demanding electronic devices. Featuring a mercury-free construction, it is designed with environmental safety in mind while maintaining consistent power output. Ideal for high-drain equipment, it offers an extended shelf life and dependable energy density for professional and consumer applications.

## Technical Specifications

Battery Classification	D Size / LR20 Alkaline
Compliance	Mercury-Free

## Logistics and Packaging

### Available Packaging

- Shrink wrap (2 pack)
- Small box (1 dozen / 12 units)
- Bulk box (12 dozen / 144 units)

### Weight Specifications

**20 kg**

Net Weight

**20.7 kg**

Gross Weight

Carton Dimensions	28.5 x 21.5 x 20.5 cm
