Product Overview

Extra heavy-duty zinc-carbon battery designed for reliable performance.

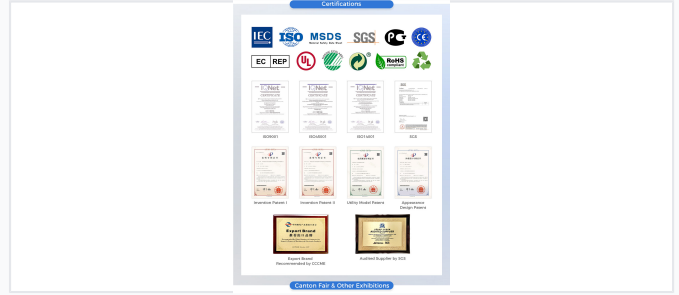

Reliable Power for Daily Applications

This D-size extra heavy-duty zinc-carbon battery is engineered for consistent and reliable performance in a wide range of electronic devices. Featuring advanced PowerLock technology, it ensures secure energy storage and extended shelf life. Designed with safety in mind, the battery is mercury-free, leak-proof, and corrosion-resistant, making it a dependable choice for flashlights, toys, and radios.

Technical Specifications

Our range includes various sizes and compositions to meet diverse power needs.

Certified quality and environmental compliance for global markets.

Key Features

PowerLock Technology • Leak-Proof • Mercury-Free • Anti-Corrosion

Battery Size	D (R20S / UM-1)
Chemistry	Zinc Carbon
Nominal Voltage	1.5 V
Shelf Life	3 years

Performance Metrics

Discharge Performance

610 min

Service Life (3.9C, 1H/d)

320 min

Continuous Discharge (3.9C, 24/d)

Logistics & Packaging

Packaging Options

- Shrink packs
- Color paper boxes
- Blister cards

Carton Specifications

Metric	Value
Batteries per Carton	288
Gross Weight	24.0 kg
Container Load (20')	1100 Cartons

Trade Terms

Accepted Payment	Letter of Credit, T/T
Lead Time	Approximately 35 days after advance payment
