Product Overview

Durable and reliable reversing alarm designed for wide-range voltage compatibility.

Reliable Reversing Safety

This high-quality DC 10-80V reversing alarm is designed to enhance safety during vehicle maneuvers. It features a robust, epoxy-encapsulated housing that is fully weather-proof and pressure washable, ensuring long-lasting performance in demanding environments. With multiple sound level options and wide voltage compatibility, it serves as a versatile safety solution for a variety of automotive applications.

Electrical & Performance

Robust construction suitable for various vehicle types.

Key Performance Metrics

80 V

Max Voltage

10 V

Min Voltage

107 dB

Max Sound Level

Available Sound Levels

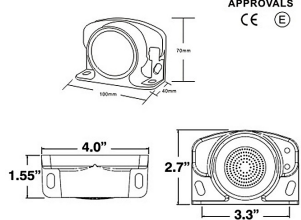

- 87
- 97
- 102
- 107

Protection Features

Reverse Polarity Protected, Weather Proof, Pressure Washable, Epoxy Encapsulated

Physical Specifications

SIZE:

Detailed physical dimensions and CE approval markings.

Physical Dimensions

Dimension	Value
Length	100 mm
Width	40 mm
Height	70 mm

Operating Temperature

-30°C to 77°C

Compliance & Warranty

Certifications

CE • RoHS • REACH

Warranty Period

12 Months
