

DC Aquarium Water Pump 700L/H

This brushless DC aquarium pump offers long life and high efficiency. It features stable speed, low noise, and continuous, reliable operation, making it suitable for aquarium and general water circulation applications.

Product Overview

High-Efficiency DC Aquarium Pump

This compact brushless DC water pump is engineered for reliable performance in both fresh and saltwater environments. With a robust IP68 waterproof rating, it is fully submersible and ideal for aquarium circulation and general water transport. The unit offers an impressive lifespan of over 30,000 hours, ensuring long-term durability for professional and hobbyist applications.

Performance Metrics

Max Flow Rate

700 L/H

Max Flow

3.5 M

Max Static Head

Technical Specifications

Electrical Requirements

- Rated Voltage: 24V DC
- Power Consumption: 20W
- Max Rated Current: 1A

Size and Weight

90mm x 60mm x 72mm; 0.55kg

Material

ABS

Features

Key Features

Submersible, Brushless, IP68 Waterproof, Dry Run Protection, Blocking Protection

Compatibility

Compatible Power Sources

Solar Panel, DC Electric Source, Adapter, Battery
