

# DC Brushless Water Pump

This water pump features a DC brushless permanent magnet motor. It has Class B insulation, IP44 protection, and continuous service S1.

## Overview

### Efficient DC Brushless Water Pump

This DC brushless water pump is designed for reliable performance with clean, non-abrasive water. It is an economical solution ideal for domestic use, such as garden irrigation and supporting small pressure sets for water heaters. Engineered for quiet operation and longevity, the unit features a durable housing and integrated thermal overload protection for safe, long-lasting use.

## Performance & Features

|                    |   |
|--------------------|---|
| Thermal Protection | Yes   |
| Key Features       | Quiet Operation, Thermal Overload Protection, Compact Design, Easy Installation |

## Usage & Compatibility

### Recommended Applications

- Domestic water distribution
- Small pressure sets
- Garden irrigation
- Allotment watering
- Water heater pressure stabilization

### Fluid Compatibility

Clean water • Non-abrasive • Non-chemically aggressive

|                           |   |
|---------------------------|---|
| Installation Requirements | Must be installed in an enclosed environment or sheltered from inclement weather. |
