Product Overview

High-Efficiency Thermal Management

This DC cooling fan is engineered specifically for notebook computers and small form factor electronic devices. It features a compact blower-style design with integrated heat dissipation components to ensure optimal airflow and thermal regulation for CPUs and GPUs. Built for reliability, it includes secure mounting points for easy installation in tight system spaces.

Technical Specifications

Power Connection

- Red wire (Positive)
- Black wire (Ground)
- Yellow wire (Signal/Control)

Fan Type

DC Blower Fan

Primary Application

Notebook Computers, Small Form Factor Devices, CPU Cooling, GPU Cooling

Key Features

Performance Highlights

1 pcs

Integrated Heat Pipe

3 qty

Connection Wires

Build Quality

Metal Housing • Compact Design • High-Performance Heatsink
