

DC Inverter MMA Welder

This DC inverter MMA welder is compact, lightweight, and energy-efficient. It provides a stable arc, minimal spatter, and self-protection against over-voltage and over-current.

Overview

Professional DC Inverter MMA Welder

This DC Inverter MMA welder is engineered for efficiency and portability, featuring a compact, lightweight design that minimizes energy consumption. It provides excellent arc-striking capabilities and maintains a stable arc with minimal spatter, ensuring high-quality, reliable welding results. Built-in safety features, including protection against over-voltage and over-current, make it a robust choice for various professional welding applications.

Performance

Welding Performance

- Good arc-striking
- Stable arc performance
- Minimal spatter
- Deep molten pool
- High welding quality

Rated Current

400 A

Max Current

Technical Features

Design Advantages

Compact Size • Lightweight • Low Energy Consumption

Safety Protections

Over-voltage protection, Over-current protection, Interference resistance

Model Identifier

ZX7-400
