Product Overview

High-Performance DC Motor

This high-performance DC motor is engineered specifically for garbage disposal units, offering reliable and efficient waste processing. Its robust cylindrical housing and precision-engineered shaft ensure durability, making it suitable for both residential and commercial kitchen appliances. The motor features an optimized winding configuration and a compact design, allowing for seamless integration into various disposal unit models.

Technical Specifications

Motor Type	DC Motor
Application Suitability	Residential Kitchen, Commercial Kitchen, Waste Disposal Units

Design & Construction

Key Features

- Robust cylindrical housing
- Precision-engineered shaft with threaded end
- Mounting flange with multiple fixing holes
- Optimized winding configuration
- Compact design for easy integration
