

DC Motor for Hand Blenders

This DC motor is designed for use in hand blenders and power tools. It features robust construction for durability and longevity.

Overview

High-Performance DC Motor

This versatile high-performance DC motor is engineered for reliability and efficient power delivery in small appliances. With a flexible voltage range of 100V to 240V, it is compatible with a wide array of international power standards. Its robust construction makes it an ideal component for hand blenders, ice blenders, and various power tools.

Technical Specifications

Voltage Range	DC 100V - 240V
Power Draw	300 W
Speed	10000 RPM

Applications

Typical Applications	Hand Blender, Ice Blender, Bar Mixer, Beauty Appliance, Power Tools
