Product Overview

Professional DC Motor Hair Dryer

This high-performance hair dryer is engineered with a powerful DC motor to deliver efficient drying with reduced noise. Designed with an emphasis on both aesthetic appeal and user experience, it features a convenient magnetic concentrator nozzle for precise airflow control. Advanced safety features, including overheat protection and anti-flaming materials, ensure reliability for both professional and home use.

Technical Specifications

Power Output

1800 W

Maximum Power

Electrical Requirements

Parameter	Value
Voltage	220V-240V
Frequency	50/60Hz

Features

Operational Settings

- 2 Speed settings
- 2 Temperature settings
- Constant temperature technology for hair protection

Safety & Design

Overheat Protection, Anti-flaming Design, 360-degree Rotation Tail, Magnetic Nozzle Attachment, Noise Reduction Technology
