Product Overview

Efficient Cooling & Humidification

This 14-inch misting fan utilizes advanced DC motor technology to deliver energy-efficient and quiet operation. Designed for both home and office environments, it features adjustable wind speed and mist volume controls, allowing for a personalized cooling experience. The integrated water tank ensures continuous misting, providing a refreshing atmosphere in any indoor space.

Technical Specifications

Power Consumption	48 W
Fan Diameter	14 inches
Motor Type	DC Motor

Control & Features

Control Method	Speedless/Stepless Control
Adjustable Features	Adjustable Wind Speed, Adjustable Mist Volume

Design & Build

Recommended Use
Indoor • Home • Office

Design Highlights

- Circular grill design
- Sturdy stability base
- Top-mounted control panel
- Knob-operated misting function
