

Electrical Specifications

Voltage Protection Level (Up)	3.8 kV
IEC/EN Category	IEC II / EN2
Available Poles	2P, 3P, 4P

Installation & Connectivity

Wiring Capacity

Cable Type	Range (mm ²)
Hard Cable	4-25
Flexible Cable	4-16

Tightening Torque

- Main Circuit: 2.5 Nm
- Remote Contact: 0.25 Nm
- Terminal Screw: M5

Mounting	Din Rail TH35-7.5/DIN35
----------	-------------------------

Environmental & Safety

Ingress Protection

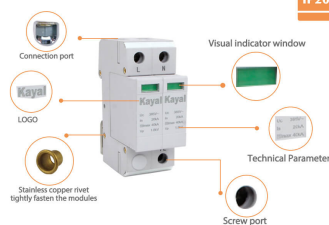

IP20

Operating Temperature	-40 to +80
Relative Humidity	30%~90%

Features

PRODUCT DESCRIPTION

SURGE PROTECTOR DEVICE

Operational Features

- Plug-in protection modules for easy maintenance
- Visual status indication (Green: OK / Red: Fault)
- Optional remote signaling contact (FM)
- High energy varistor technology
- Prewired modular complete unit

Remote Contact Rating	Max 30V DC / 1A
