Overview

High-Visibility LED Strobe Beacon

This heavy-duty LED strobe warning beacon is designed for professional applications requiring high-intensity signaling, such as construction, traffic control, and emergency response. It features a robust PC lens and ABS base, ensuring durability in demanding environments. Equipped with a convenient magnetic base and cigar mount, it offers rapid deployment and reliable performance across a wide DC10-30V voltage range.

Technical Specifications

Key Performance Metrics

16 W

Power Consumption

40 PCS

LED Quantity

12 Months

Warranty

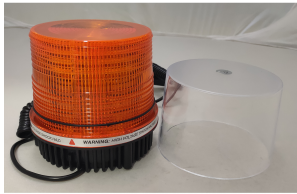

Operating Voltage

DC 10-30V

LED Chip Type

5730 SMD LED

Construction & Installation

Build Materials

- Polycarbonate (PC) Lens
- ABS Base

Installation Method

Magnetic base with cigar mount

Compliance & Logistics

Payment Terms

- 30% T/T deposit before production
- 70% balance before shipment
- 100% L/C at sight

Available Trade Terms

FOB • EXW • DDU

Certifications

CE

Minimum Order Quantity

100 pieces

Delivery Lead Time

25-30 days after deposit (if not in stock)
