

# DC12-80V Amber LED Forklift Warning Light with Magnetic Base

This DC12-80V amber LED warning light is designed for forklifts and other industrial vehicles. It features SMD 5730 LEDs for a bright, attention-grabbing strobe flash and rotating light effect.

## ADDITIONAL IMAGES

## Overview

The high-intensity SMD 5730 LED beacon provides 360-degree visibility for industrial safety.

### Industrial Grade Warning Beacon

This versatile LED warning light is designed for high-visibility safety on forklifts and industrial vehicles, featuring SMD 5730 LEDs for powerful strobe and rotating effects. Built with a choice of aluminum or plastic bases and a durable PC lens, it meets IP56 international protection standards for reliable performance in demanding environments. The magnetic mount version is rated for speeds up to 70mph, ensuring secure placement during operation.

## Technical Performance

IP Rating

IP56

### Key Performance Metrics

**70 mph**

Magnetic Speed Rating

**5730 SMD**

LED Type

Operating Voltage

12V - 80V DC

## Lighting & Functions

### Flash Patterns

- Single Flashing
- Double Flashing
- Rotating

### Available Lens Colors

Amber, Blue, Clear, Red, Yellow

## Construction & Mounting

### Base Material Options

- Aluminium Alloy
- Plastic

### Mounting Types

- Magnetic Mount
- Two-Wire Mount
- DIN-mount (for speedy replacement)

### Mechanical Features

- Silicone drive rotator for quiet operation
- PC Lens for impact resistance
- Optional 3 or 6 piece strong magnet upgrades

## Customization

### LED Configuration Options

LED Type	Power per Unit
Power LED	1W
SMD / Flux	0.2W
Normal LED	0.05W
