

Decorative Ceiling Fan with Light

This decorative ceiling fan features four wooden blades and a brushed nickel finish. It includes an integrated light fixture with a frosted glass globe, offering both illumination and air circulation for indoor spaces.

Product Overview

Elegant Air Circulation & Illumination

This decorative ceiling fan seamlessly combines sophisticated design with versatile functionality, making it an ideal choice for indoor environments. It features a dual-purpose airflow system that supports both upward and downward air circulation for year-round comfort. With integrated lighting capabilities and adjustable speed settings, this unit provides both essential illumination and customizable ventilation in one stylish package.
