

# Decorative Metal Trivet with Goose Design

This decorative trivet is constructed from polished metal and features a circular design with concentric rings. The central element is a stylized cutout depicting a mother goose with a gosling, supported by three small metal feet.

## Product Overview

### Elegant and Functional Table Protection

This decorative metal trivet combines artistic design with practical utility, featuring a charming mother goose and gosling cutout. Its polished metal construction and concentric ring pattern provide a sophisticated look for any kitchen or dining setting. Designed with three integrated feet, it effectively elevates hot dishes to protect your countertops and tables from heat damage.
