

Deep Cycle Gel Battery

This 12V deep cycle gel battery is designed for deep-cycle applications. The sealed lead-acid design ensures safety and prevents leaks.

Overview

High-Performance Deep Cycle Gel Battery

This deep cycle gel battery is engineered for reliable energy storage in solar power systems and demanding deep-cycle applications. Designed with a sealed, leak-proof container, it ensures maintenance-free operation and enhanced safety during use. With consistent performance capabilities, this battery provides a robust solution for backup power and energy storage needs.

Technical Specifications

Available Capacities

- 24Ah
- 38Ah
- 100Ah
- 150Ah
- 200Ah

Quality Tiers

80% Quality • 90% Quality

Rated Voltage

12 V

Safety & Handling

Important Safety Instructions

- Avoid short circuits
- Do not charge in a sealed container
- Risk of fire, explosion, or burns
- Do not disassemble
- Do not heat above 55°C
- Do not incinerate

Features

Key Features

Deep Cycle, Gel Technology, Sealed Container, Leak-Proof, Maintenance-Free
