

Deep Well Water Pump

This deep well water pump is designed for efficient water extraction. It is suitable for agricultural, industrial, and domestic water supply applications.

Product Overview

High-Efficiency Deep Well Pump

The 4SP3 deep well pump is engineered for reliable water extraction from deep wells, offering a robust solution for demanding environments. Featuring a multi-stage impeller system, this pump delivers consistent high pressure and flow rates. It is a versatile choice suitable for a wide range of applications, including agricultural irrigation, industrial processes, and domestic water supply systems.

Technical Specifications

Key Features

- Multi-stage impeller system
- High-pressure output
- Durable construction

Model Number	4SP3
Suitable Applications	Agricultural, Industrial, Domestic
