

Degradable U-Cut Plastic Carrier Bags

These degradable vest bags are designed for carrying groceries and retail items. The bags have a U-cut handle for convenient carrying and are made from a material that promotes biodegradation.

Product Overview

Eco-Friendly Carrying Solution

These degradable vest-style carrier bags are designed for versatile use in grocery and retail environments. Featuring a convenient U-cut handle design, they offer easy carrying while maintaining a lightweight profile. Constructed from materials that promote biodegradation, these bags provide an environmentally conscious alternative for daily shopping and general item transport.
