Product Overview

Premium Multi-Function Massage Chair

The RT8800 is an advanced, multi-function massage chair engineered to provide a comprehensive, full-body therapeutic experience. Featuring a flexible track combined with a dual-mechanism system, it provides precise 3D deep tissue massage, stretching, and targeted compression. With integrated graphene heat therapy, zero gravity positioning, and intuitive tablet-based controls, it is designed for ultimate relaxation and muscle recovery.

Technical Specifications

Power Consumption	180 W
Rated Voltage	220V~
Net Weight	110 kg

Dimensions

Upright Dimensions	1670mm x 945mm x 1245mm
Reclined Dimensions	1800mm x 945mm x 985mm

Key Features

Footrest features 3 spiky rollers and 18 airbags, powered by instant-heat graphene for improved circulation.

Smart Controls

- Tablet touch screen controller
- Quick-access physical buttons
- APP Bluetooth connectivity
- 12 Featured auto-massage programs

Additional Comfort

Graphene Heat Therapy • Zero Gravity • Wall Hugger Design • Anti-Pinch Safety • Surround Stereo Speakers • Dynamic LED Lighting
