

Demolition Hammer

This demolition hammer is designed for breaking concrete, asphalt, and other hard materials. It features a powerful motor and durable construction.

Overview

Heavy-Duty Performance

The Z1G-FD-65B demolition hammer is a robust, high-performance tool engineered for demanding construction and renovation environments. Designed specifically for breaking through concrete, asphalt, and other hardened materials, it combines a powerful motor with durable, long-lasting construction. Its ergonomic design ensures operator comfort during extended use, making it an essential asset for professional demolition and site preparation tasks.
