

Demolition Hammer for Concrete Breaking

This demolition hammer is designed for heavy-duty demolition work. It delivers high impact energy for efficiently breaking and chipping concrete, masonry, and other hard materials.

Product Overview

Professional Demolition Performance

The DB1350 Demolition Hammer is a powerful and robust tool designed for heavy-duty demolition work, featuring a high-performance motor and durable construction for a long service life. It delivers high impact energy for efficient breaking and chipping of concrete, masonry, and other hard materials. Equipped with a vibration reduction system and an ergonomic adjustable auxiliary handle, it ensures increased user comfort and enhanced maneuverability during prolonged professional construction applications.

Performance Metrics

Key Performance Indicators

1350 W

Input Power

15 J

Impact Energy

4000 /min

Impact Rate

Technical Specifications

Voltage & Frequency

- 230V ~ 50Hz
- 120V ~ 60Hz

Chuck System

SDS HEX

Features & Ergonomics

User Comfort Features

Vibration Reduction System, Adjustable Auxiliary Handle, Ergonomic Design

Applications

Suitable Materials

- Concrete
- Masonry
- Hard Construction Materials
