Product Overview

Professional Abrasive Grinding Solutions

This depressed center grinding wheel is engineered for high-performance material removal across a variety of surfaces. It is specifically designed for effective grinding and finishing tasks on metal, inox, and stone. Built for durability and safety, this abrasive tool is an essential component for professional fabrication and construction environments.

Technical Specifications

Maximum Speed	80 m/s
Maximum RPM	13300
Dimensions	115 x 1.0 x 22.2 mm

Application & Usage

Compatible Materials	Inox, Metal, Stone, Plastic, Wood
----------------------	-----------------------------------

Safety & Compliance

Required Personal Protection

- Dust protection
- Eye protection
- Ear protection

Compliance Status

Safety Standards Compliant
