

Depressed Center Grinding Wheel - 4.5" x 1/4" x 7/8"

This depressed center grinding wheel is designed for metal grinding applications. It features a durable abrasive composition for efficient material removal and long wheel life.

Overview

Professional Grade Grinding Performance

This depressed center grinding wheel is engineered specifically for efficient metal grinding applications. Designed for compatibility with standard angle grinders, it offers a durable abrasive composition that ensures consistent material removal and an extended service life. It is an essential tool for metalworking tasks requiring precision and reliability.

Technical Specifications

Application

Metal Grinding

Dimensions (Imperial)

4 1/2" x 1/4" x 7/8"

Dimensions (Metric)

115 x 6.4 x 22.2 mm

Model Number

KY412001

Country of Origin

China
