

Depressed Center Grinding Wheel - 7 inch, A24Q-BF

This depressed center grinding wheel is designed for metal grinding applications. It has dimensions of 180x6x22.23mm and a maximum speed of 8500 RPM.

Product Overview

Professional Grinding Performance

This depressed center grinding wheel is engineered for high-performance metal grinding applications. Constructed from durable aluminium oxide, it provides consistent material removal and longevity. Designed to meet international safety and performance standards, it is an essential consumable for metalworking professionals.

Technical Specifications

Abrasive Material	Aluminium oxide
Maximum Speed	8500 RPM
Max Peripheral Speed	80 m/s
Specification Code	A24Q-BF

Dimensions

Available Dimensions

Diameter (mm)	Thickness (mm)	Bore (mm)
100	6	16
180	6	22.23

Compliance & Safety

Safety Standards	EN 12413, MPA
