Overview

Compact Desktop Air Purification

This H13 HEPA desktop air purifier is designed for personal spaces and small rooms between 7-13m², offering a Clean Air Delivery Rate (CADR) of 110m³/h. It features a sophisticated multi-stage filtration system combining high-grade HEPA and activated carbon to remove allergens, dust, and odors. With integrated UV sterilization and a whisper-quiet sleep mode, it provides a healthier breathing environment for office desks or bedside tables.
