

Desktop Air Purifier with UVC Sanitization

This desktop air purifier uses a multi-stage filtration system to capture dust, pollen, smoke, and odors. Integrated UVC light provides additional sanitization by neutralizing airborne pathogens.

Overview

Compact Air Purification for Personal Spaces

This desktop air purifier is engineered for personal environments, such as offices and bedside tables, providing efficient air cleaning in a compact form factor. It utilizes a multi-stage filtration system including HEPA and activated carbon to remove dust, allergens, and odors, while integrated UVC light and photocatalyst technology neutralize airborne bacteria and viruses. With quiet operation and customizable settings, it offers a versatile solution for improving indoor air quality in smaller rooms.

Performance Metrics

CADR Rate

80 m³/h
CADR (m³/h)

47 CFM
CADR (CFM)

Effective Coverage Area

10 m²

Operating Noise Level

41dB(A) - 54dB(A)

Technical Specifications

Power Supply

100-240V AC, 50/60Hz

Rated Power Consumption

9.6 W

Features

Control & Convenience

- 3 Fan Speeds
- Dedicated Sleep Mode
- 2, 4, 8-hour Timer
- Filter Replacement Indicator
- Integrated Night Light

Filtration Technologies

HEPA Filter, Activated Carbon, UVC Sanitization, Photocatalyst
