

Desktop Computer Memory Module

This high-performance memory module is designed for desktop computers. The module enhances system responsiveness and allows for smoother multitasking.

Overview

High-Performance Desktop Memory

This high-performance memory module is engineered specifically for desktop computers to significantly enhance system responsiveness. Designed for reliable operation, it facilitates smoother multitasking and provides the necessary speed for demanding applications and gaming. Its broad compatibility ensures it integrates seamlessly with a wide range of modern motherboards.

Technical Specifications

Capacity	1 GB
Module Type	Desktop Memory Module
Part Number	M3CA0AG3J443BC12
Model ID	6400S-555-12
Serial Number	A012800001CS

Compliance & Warranty

Warranty Status

Warranty void if removed
