

Detachable Container Garbage Truck

This detachable container garbage truck is a specialized sanitation vehicle. It is economic and energy-saving, flexible and highly efficient, and it is especially applicable to garbage handling in populated areas.

Overview

Efficient Waste Management Solution

This detachable container garbage truck is a specialized sanitation vehicle engineered for high efficiency and flexibility in urban waste handling. Designed to work seamlessly with garbage transfer stations, it offers an economic and energy-saving solution for populated areas. The vehicle features a robust hydraulic system and a compact design, ensuring reliability and maneuverability in demanding environments.

Performance Metrics

Lifting Capacity

6300 kg
Lifting Capacity

12400 kg
Maximum Capacity

Operational Cycle Times

Operation	Time
Hooking	d66
Unload	d66

Technical Specifications

Weight Specifications

- 6007
- 6198

Maximum Hydraulic Pressure	18 Mpa
